

A Choose-Your-Own Adventure Fit for a Neutral Good Deep Gnome

Created by Books of Bokonon in honor of the upcoming release of the song, "Random Encounter Tables".

The orcs see you and start to give chase but you escape into the broad daylight where they won't follow you. You'll come back another day to find the fabled Bracers of the Moon. For now, you need to get home and check on your ooze farm and you hope that none have escaped and terrorized the village (again). Those Bracers sure would have helped – you've had far too many workplace accidents of late.

Your adventure is over far too soon!

[YOUR FINAL SCORE IS 0 POINTS – END]
